

Manage Your Printing Fleet

Managed Print Services helps organizations save costs, reduce their carbon footprint, and even improve basic business processes. The process of managing your printer and copy fleet (printers, copiers, faxes, and multifunction devices) with an MPS provider, automating document workflow, and implementing document management services, has a significant impact on the critical problem of uncontrolled spending. Small business and major corporations alike see positive gains from managed print service programs.

Significant Cost Savings

The implementation of an MPS strategy typically provides savings of 10% or more to clients. According to IDC research, MPS customers may see cost savings in the following areas:

- Device overhead, including hardware, break/fix, and toner
- Help-desk calls
- Paper costs, including storage and impact on the environment
- People costs, including streamlined business process document workflows and associated IT burden

Other benefits noted by clients include reduced carbon footprint, management of supply inventory, and one contact for nationwide support.

Business Value

Managed Print Services (MPS) is a unified approach to the management of hardcopy print devices such as printers, scanners, copiers, and fax machines. MPS is a service that includes an assessment, right-sizing, pro-active management, and on-going optimization of the printing and imaging environment. It also can include solutions that help automate paper-based workflows.

Automated Processes & Management Tools

Many of the benefits are due to better data collection and the generation of reports that share usage and trends. This allows an organization to make more informed management decisions. The Loffler MPS solution includes:

- Nation-wide service & support
- 24-hour online customer service portal
- PrintWise data collection tool
- Automated supply fulfillment
- Automated meter readings
- All parts and labor
- Live reporting of service and printer activity
- Rightsizing recommendations
- On-going review of program benefits
- Toner recycling

Choose your Financial Model:

Cost per Page

- Fixed cost per page
- Blended cost based on fleet

Cost per Toner

- Fixed cost per toner
- Toner cost based on device

Save Time and Cost

Companies have saved up to 30% on their total printing expenditures by switching to Loffler Managed Print Services PrintWise solution. Contact Loffler today for your custom Managed Print Services solution.
